

## 2005 Friends of MEMS Campaign

---

Ohio MEMS Association (OMA) is a not-for-profit public service organization addressing MEMS product commercialization requirements. There is no official "membership" in OMA but rather companies and individuals come together and collaborate on a variety of projects and activities, some as simple as sponsoring forums to discuss the economic benefit of MEMS technology, and others are of a much larger scope, such as: educational literature, marketing data analysis, investor awareness, community information needs, and the development of workforce development curricula.

By joining OMA's Friends of MEMS, you support the Association's work, demonstrating individual or corporate support of our unique activities.
